num

A handwritten signature in black ink, appearing as a series of loops and curves.

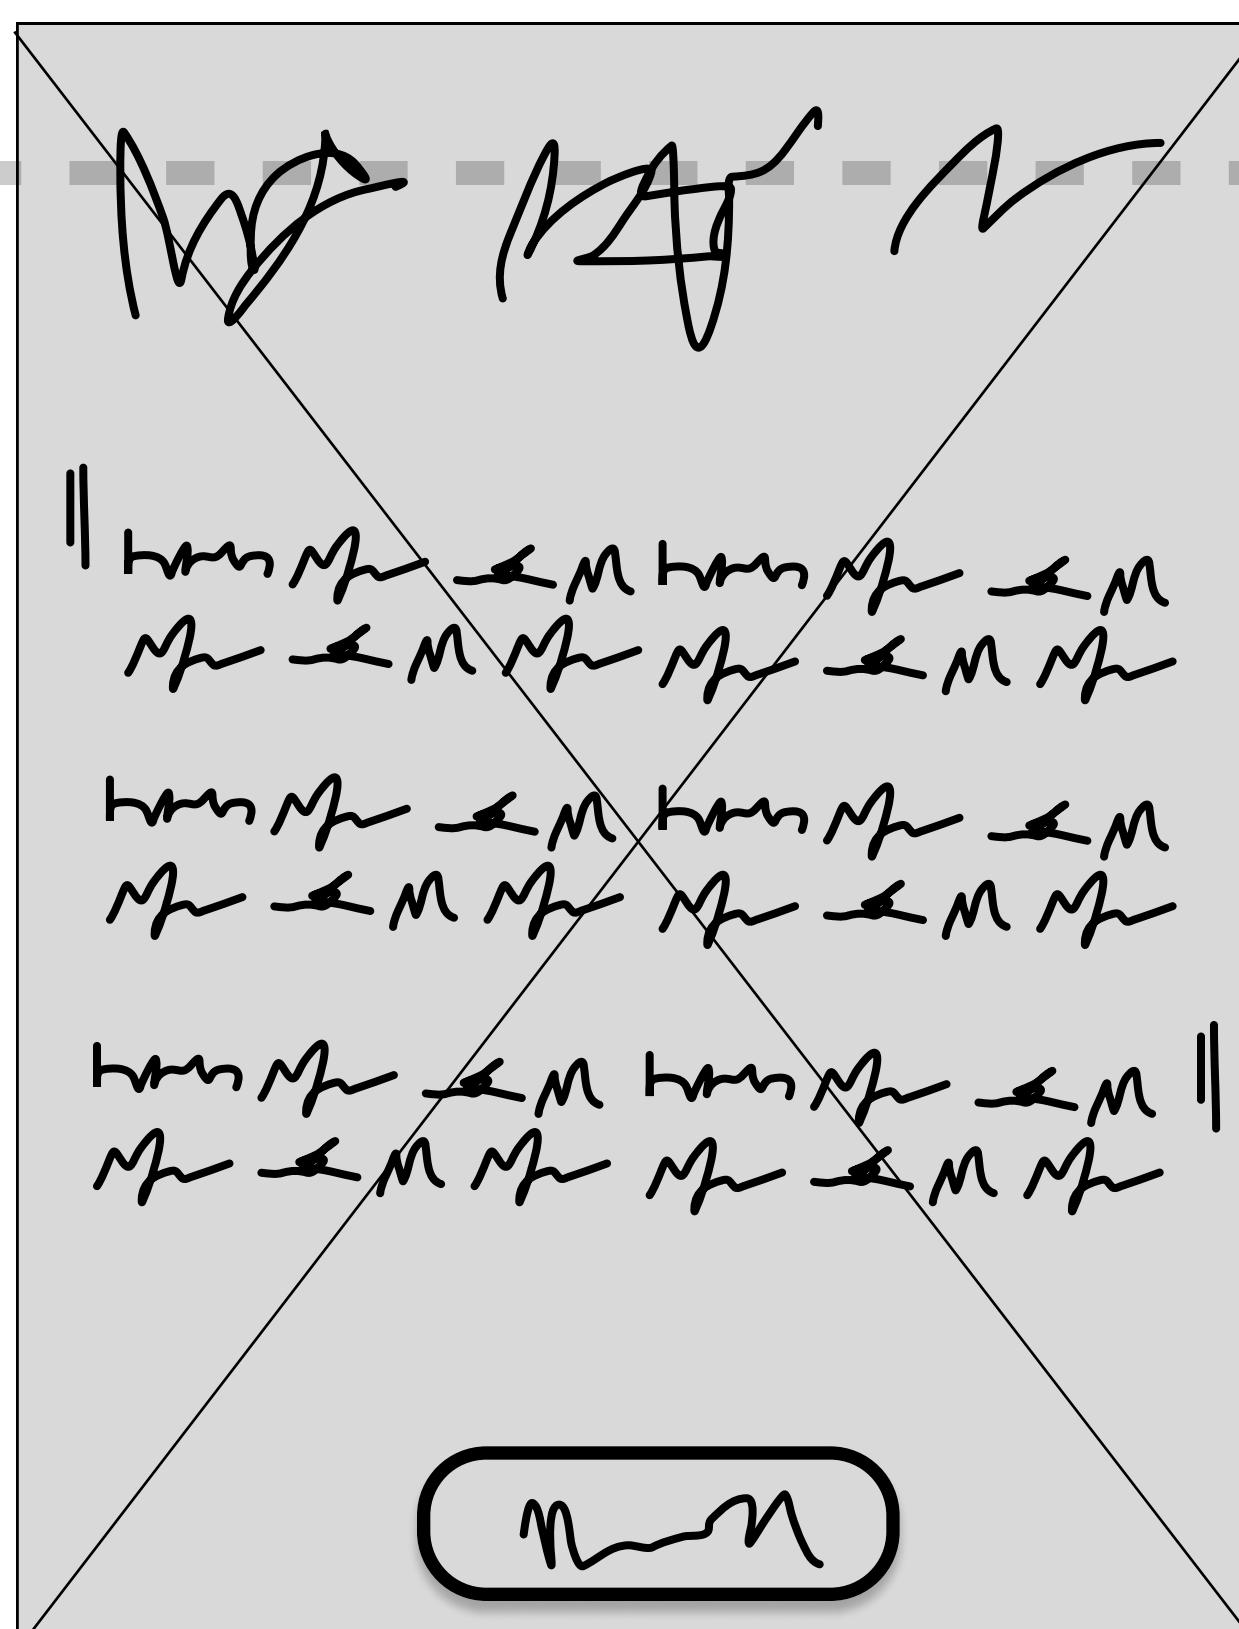

The image shows a handwritten signature "WAT" at the top left, followed by three rows of cursive handwriting practice. The first row contains the letters "W", "A", and "T". The second row contains three identical sets of the letters "W", "A", and "T". The third row also contains three identical sets of the letters "W", "A", and "T". The handwriting is done in black ink on a white background.

A hand-drawn wavy line consisting of several irregular, rounded segments. It starts with a small bump on the left, followed by a long, low dip, another small bump, a higher peak, and finally a large, final bump on the right.

The figure consists of three horizontal strips of ECG tracing. The top strip shows a regular sinus rhythm with a rate of approximately 80 bpm. The middle strip shows a regular atrial fibrillation pattern with a rate of approximately 100 bpm. The bottom strip shows a regular ventricular fibrillation pattern with a rate of approximately 120 bpm.

A hand-drawn wavy line in black ink, starting with a small peak on the left, followed by a dip, a larger peak, another dip, and a final large peak on the right. The line is irregular and organic in style.

2

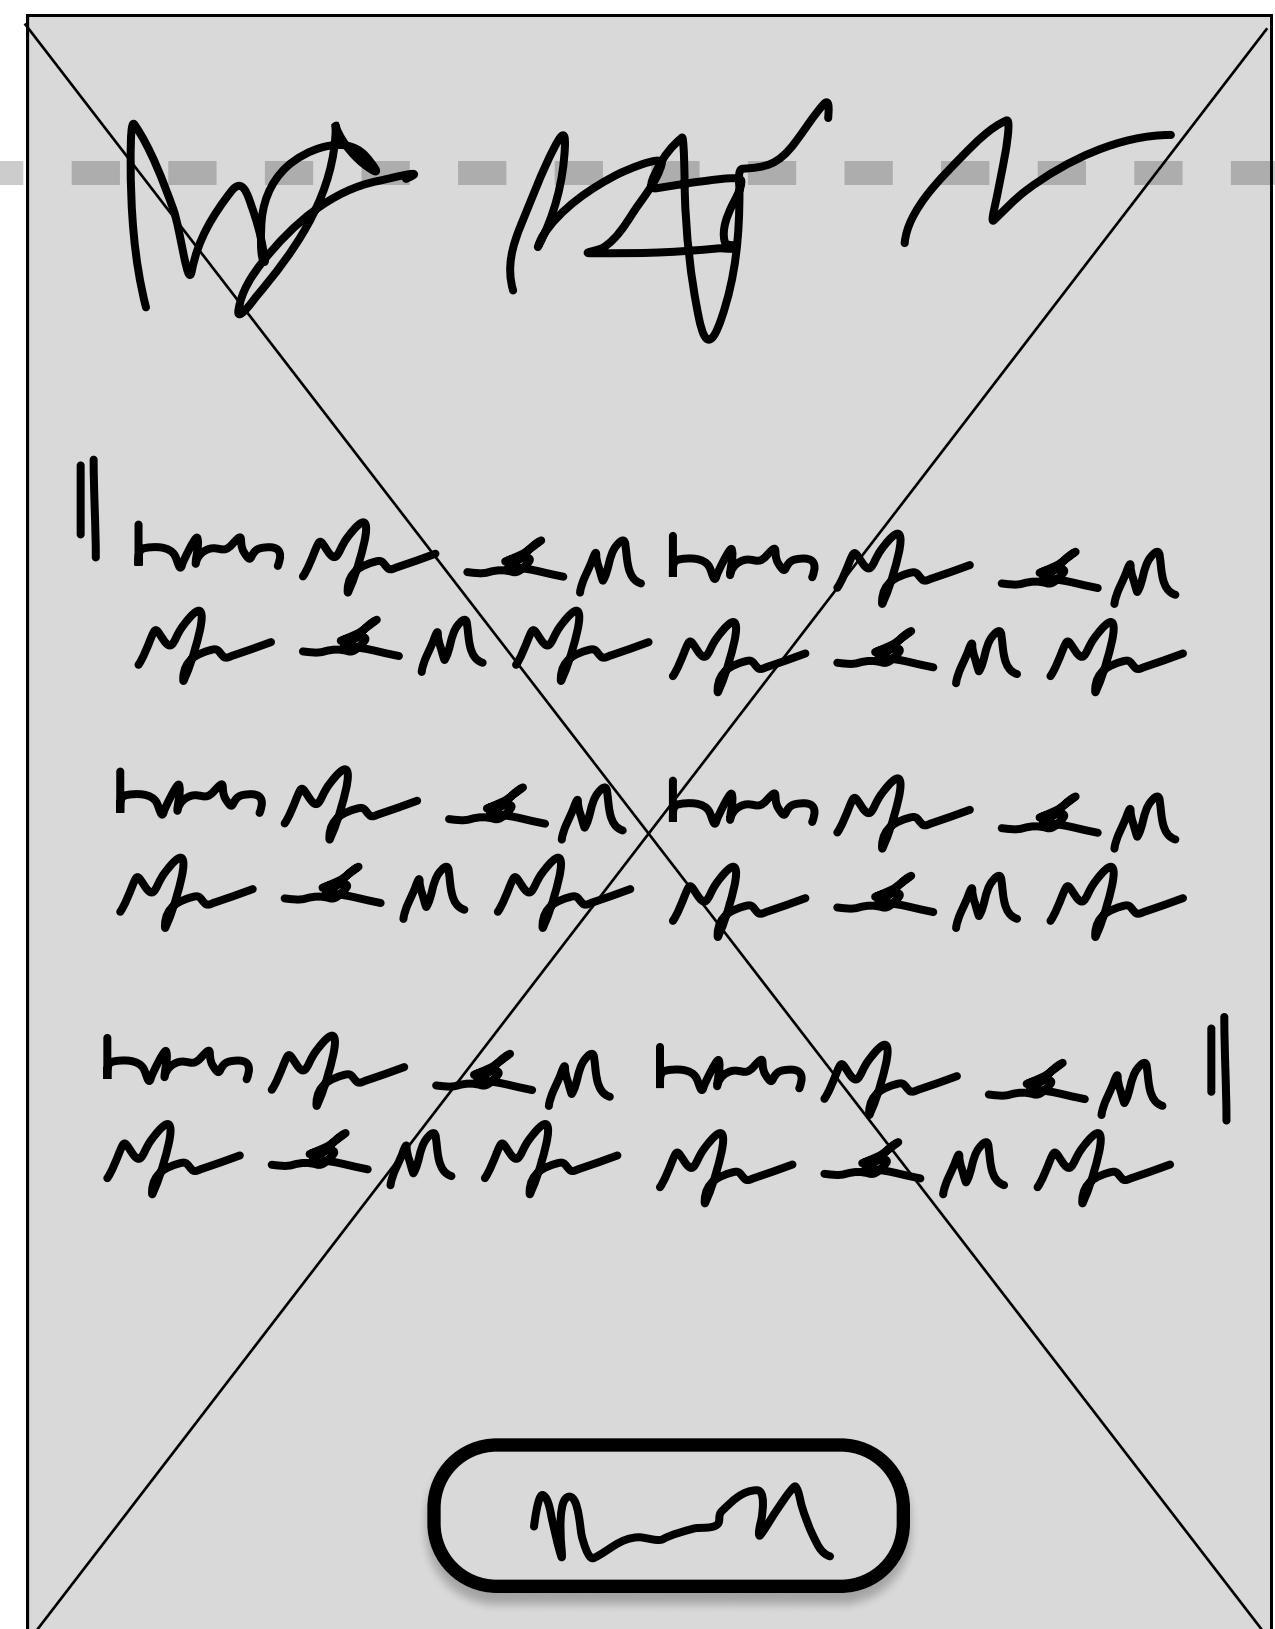

A handwritten signature consisting of a series of fluid, cursive strokes.

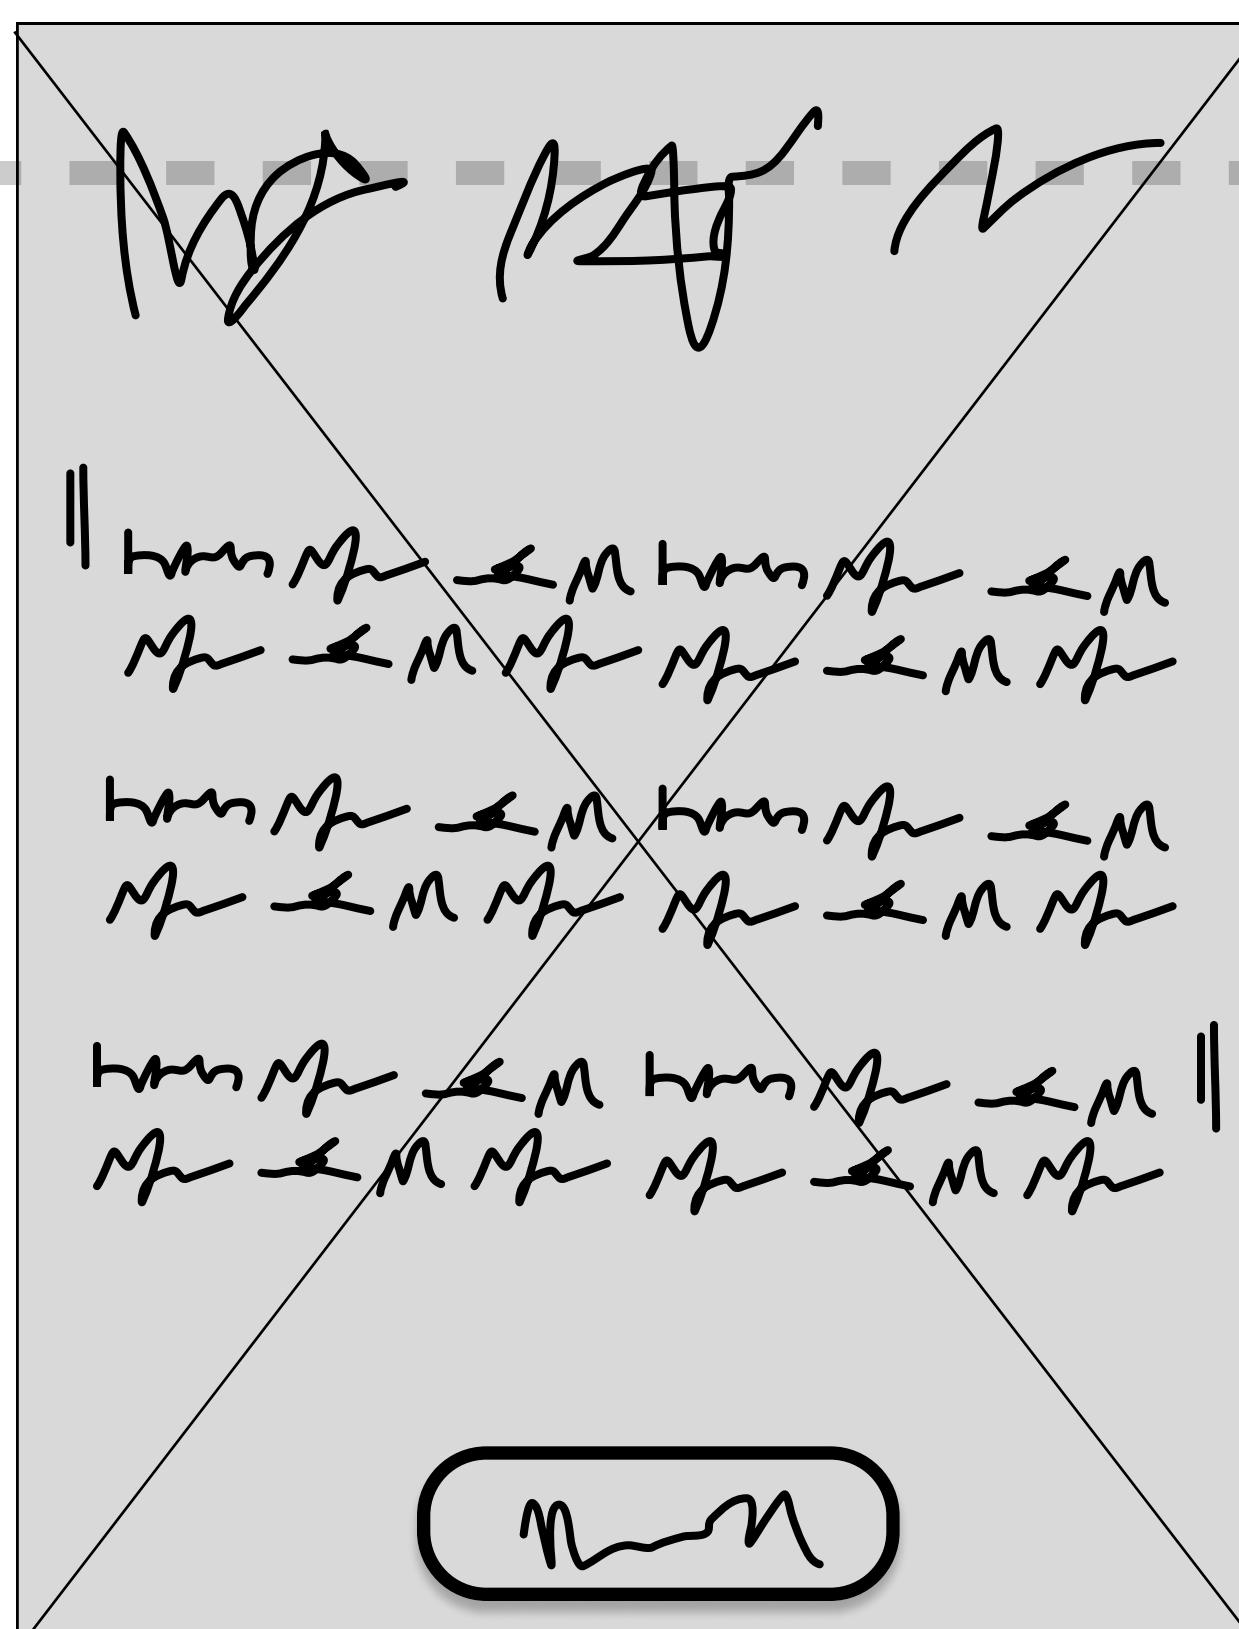

The figure consists of a 3x3 grid of plots. The top row contains three separate time series, each with a jagged line and a smooth curve fitted to it. The middle row contains three plots showing the mean of the data in each column. The bottom row contains three plots showing the difference between the mean and the individual series.
